CHAMAR PEOPLE

STATISTICS

Population - 54,787,000

Hindu - 98.25% Buddhist - 00.54%

Christian - 01.21%

Main Language - Hindi

The Chamar are among the lowest class communities in the Hindu world, making them, in Indian-Hindu tradition, undesirable & unworthy of any sort of consideration or provision by society. This translates into frequent joblessness, lack of education & lifelong poverty.

They follow the spiritual teachings of Ravidas, recite mythological tales & sing songs from the religious epics.

The religious system is a key part of their identity, leaving no room for Jesus Christ.
